

SonarWiz 7 Training Workshop

Virtual Event

June 9-11, 2021

This year, Chesapeake Technology will be holding a mid year training event virtually, allowing easy participation from the comfort and safety of your home office. While the environment will be different, the syllabus will be nearly as in-depth and interactive as the three day in-person workshops.

Attendees will learn the latest features, best practices and tips to improve efficiency using SonarWiz to process data and plan surveys. We are pleased to welcome our hardware partners for guest speaking segments during the event.

Class Will Include:

- Sidescan Processing
 - Bottom track, gain settings, file adjustments
 - Contact and Feature generation, export to reports
 - Export functions
- Sub-bottom
 - Processing data, bottom tracking and reflector tracking
 - Cores, contacts
 - Data alignment and Export
- Magnetometer processing
- Multi Beam Bathymetry
 - Processing data, swath and area editor
 - Patch and Performance test overview
 - Grid and contour creation
- Real Time Operation
 - Loading servers; running Sidescan, Sub bottom and Bathymetry acquisition
 - Creating lines, real time windows; Helm Display
- Tools
 - How to analyze and fix sonar data
 - Sonar Nav Injector
 - Map correction

When: June 9-11, 2021 10am - 6pm EST

Price: \$249 per person

\$695 per company (up to 4 trainees)

\$100/student- call for group discounts

- Save 15% with a current EMA
- Attend for free if you purchase a new SonarWiz license within 60 days

Includes:

- 14-Day SonarWiz 7 demo license (for use during and after class)
- Sample data sets
- Training materials and guides
