

SonarWiz and EdgeTech Virtual Training

Our UK reseller Saderet Ltd is hosting a one-day workshop in the UK on behalf of Chesapeake Technology and EdgeTech. The training will be held on February 24, 2021 from 9am- 5pm GMT. There is no charge for this training event.

The training will cover SonarWiz Sidescan and Sub Bottom using EdgeTech 4125 side scan sonar, 4205 side scan sonar, 3400 sub-bottom profiler, 6205 Bathymetry sonar, 2300 combined side scan sonar and sub-bottom profiler. Space is limited and RSVP requested by Feb 14. Please [click here](#) to email an RSVP to Saderet Ltd.

December Training Event and Exhibition

This year Chesapeake Technology held their Annual Training event virtually. They had over 200 trainees, more than triple the normal attendance. The workshop covered theory and hands-on use of SonarWiz 7.7 with focus on sidescan, sub-bottom and multibeam bathymetry. Twenty-five industry partners attended the event and several of CTI's guest speakers presented during breaks between training sessions.
